Kelio Prima^{R2}

Providing a complete view of your time management

Kelio Prima^{R2} adapts to your working organisation and has all the features that you need for time and attendance and absence management.

You can manage:

- the employee's file
- clockings
- multiple schedules
- overtime hours
- night, weekend and public holiday working
- absences: totals and balances
- breaks
- the anomalies and the events log

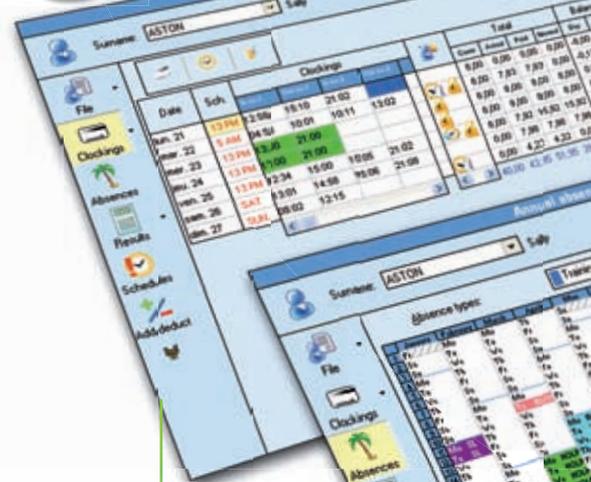

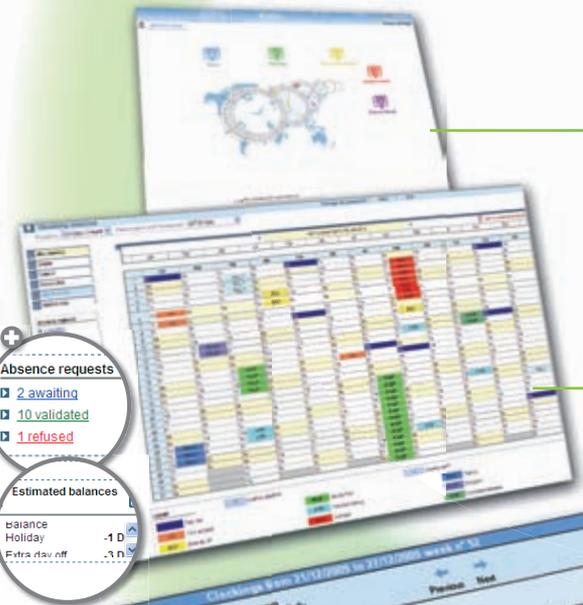

A participatory and empowering solution

- Personal workspace: Absence request, Validating, Statements
- Individual file: centralised personal and professional data management (health, career, training and skills)
- Personnel planning
- Access control: access security solution interfaced with time and attendance
- Analytical activity time monitoring
- Data exchange / Data warehouse

Simple implementation

Technical architecture

The Kelio Prima^{R2} system is based on a web architecture. It can be accessed via a web browser under Windows® 7, Vista, XP, 2003 and 2000. Web services
 - More than 400 standard exports and more than 50 standard imports.
